

A close-up photograph of a single pink tulip flower in bloom, positioned slightly to the left of the center. The flower's petals are a soft, light pink color with some darker pink veining. It is surrounded by numerous long, green, lance-shaped leaves that are covered in small, clear water droplets, suggesting a recent rain or dew. The background is dark and out of focus, making the flower and leaves stand out.

All our helping
involves some helplessness.
